- Wetland Pay Trail
- Wetland Nature Reserve boundary
-  Woodland
-  Water body
-  Reed bed
-  Grassland

Trees are laden with
apples, plums,
elderberries, blackberries
and sloes. A great food
source for birds

Flocks of
redwings and
fieldfares feeding
on berries

Canada geese
Greylag geese

The Wetlands Trail is an easy to follow level walk of around 2km. It is an interesting mix of woodland, grassland, reed beds and water bodies with plenty to see and hear as you walk round. The small charge for entering the Wetlands Nature Reserve contributes to the management of this area for nature conservation. Strictly no dogs or bicycles.
